### How to do this activity:

1. Use **Ready for Play and Learning** to see if your child is ready to play and learn. Remember to use **5 Steps to Success** as you help your toddler explore their natural curiosity during the activity.
2. Set up 2 "bases" either inside or outside. These can be pieces of furniture, pillows, trees, etc. Show your child how to run from one base to the other, while showing them how to touch each base. After your child understands how to run between 2 bases, add a third and fourth base.
3. Act excited by cheering and clapping for your toddler as they run the bases. If you want to make this game last longer, you can put a toy or something on each base and have your child collect them in a container or return them back to you one at a time.
