How to do this activity:

1. Use **Ready for Play and Learning** to see if your child is ready to play and learn. Remember to use **5 Steps to Success** as you help your toddler explore their natural curiosity during the activity.
2. Gather a safe household item or toy and show it to your child. Then tell them to close their eyes while you hide the object.
3. As your toddler looks for the item, make a buzzing sound. Buzz louder when they get close to the item, but make your buzz softer when they move away from the object.
4. When your child finds the hidden item, show them that you're excited by talking with them about their feelings as well as your emotions. For instance, you might say something like: **You found your bear behind the couch. You're feeling EXCITED that you found your bear. I'm feeling very PROUD of you for finding your hidden bear.**
