#### How to do this activity:

1. Use **Ready for Play and Learning** to see if your child is ready to play and learn. Remember to use **5 Steps to Success** as you help your toddler explore their natural curiosity during the activity.
2. Fill a large bowl, tub, or bin with water. Gather some items from around your home that will float on top of the water such as plastic spoons, uncooked pasta noodles, or pieces of a sponge. Collect a jug with a handle cut in half as well.
3. Help your child use their imagination to pretend they're going fishing with their jug. Encourage them to imagine the floating items are fish. As they scoop out their fish, talk with them about what they're hearing, seeing, touching, doing, and feeling. You can say something like:

**Those yellow fish are swimming fast! Can you catch that one there?  
Splash! You caught the fish in your jug. The fish feels squishy.**
