**How to do this activity:**

1. Use **Ready for Play and Learning** to see if your child is ready to play and learn. Remember to use **5 Steps to Success** as you help your toddler explore their natural curiosity during the activity.
2. Draw a **LARGE**, simple tooth on a piece of paper. Then cut the tooth out and encourage your child to draw on it with markers or crayons.
3. Once they've finished drawing on the tooth, gather a toothbrush and encourage them to pretend they're brushing the tooth. You can support them to use their imagination and pretend all the scribbles or marks they made are spots they need to brush away.
