### How to do this activity:

1. Watch for cues and signals to see if your child is ready to play and learn. Remember to help your child explore their natural curiosity during the activity.
2. Select a traditional song or hymn to sing. If your child is ready, lay them in front of you.
3. Looking into their eyes, sing the song while you make your face expressive. Use your hands to highlight certain words or move their hands or feet to the rhythm of the song.
4. If your child is feeling upset, try holding them while you sing softly.
5. As your child develops their language skills, encourage them to join in singing or humming. Encourage them to move their hands to the rhythm.
